## **Bee Valve Introduces New Thread Seal Product BVI-6™**

Bee Valve Inc. introduces its newest product, BVI-6™ Thread Seal. BVI-6™ is an industrial adhesive sealant formulated to resist sagging, dripping and running. The adhesive offers exceptional bonding for many plastics and between wood, metal, glass, fiberglass, ceramics, masonry, concrete, asphalt, leather, rubber and vinyl. BVI-6™ Thread Seal remains flexibility in cold temperatures and is highly resistant to vibration.

BVI-6™ Thread Seal provides adhesion between a wide variety of materials in a full range of applications including manufacturing and industrial, agricultural and forest, commercial and institutional facilities, marine, construction and carpentry, and electrical and maintenance.
