Bee Valve Offers Hard-to-Find PVDF Cam Couplers/Adapters

Bee Valve Inc. manufactures a complete line of hard-to-find PVDF cam couplers/adapters. This material is partially applicable where ultra high purity or UL94-VO listing is required. PVDF is also resistant to chemicals such as halogens and strong acids, even at higher temperatures. PVDF couplers/adapters are the preferred choice for corrosive chemical, ozone and high radiation applications.

Bee Valve couplers and adapters are available in sizes from ¼ in. to 3 in. All couplers feature stainless steel handles and pins. EPDM gaskets are standard, Buna-N and Viton are also available. All Bee Valve couplers and adaptors are interchangeable with other military spec couplers and adaptors.

A complete line of polypropylene and nylon couplers/adapters are also available. Contact Bee Valve or visit www.BeeValve.com.
